Plant Science Conditional Admission Application Form for Five-Year BS-MS Program

Student Name
Student ID Number
Undergraduate Major
Undergraduate Program Concentration
Year of Undergraduate Catalog Being Followed to Meet Degree Requirements
Undergraduate Academic Advisor
Cumulative GPA
Total Number of Completed Credit Hours of the 120 Required for a BS Degree, Plant Science Major
Total Number of Credit Hours Completed in Plant Science
Plant Science Core Classes Completed (i.e., PLSC 180, PLSC 210, PLSC 330, or PLSC 333)
Reviewed Plant Science MS Thesis Requirements in the <u>Plant Sciences Graduate Student Handbook</u> (Yes or No)
Name of Plant Science Graduate Research Faculty Member Willing to Serve as Graduate Advisor
Concentration for MS Thesis Research area:
Topic Area to be Pursued for Thesis Research:
Names (if known) of Two Other Plant Science Research Faculty Willing to Serve on Graduate Advisory Committee
Names and Email Addresses of Three Individuals Uniquely Qualified to Submit a Reference Letter on Your Behalf Attesting to Potential to Complete Requirements for an MS degree

Qualified students may take up to 9 credit hours of <u>graduate level courses</u> and have them count toward both the BS degree and the MS degree. In the table below, please identify the graduate level courses approved by the student's graduate advisory committee and Director of Graduate Studies to also meet Plant Science MS degree requirements. Be sure to include year and term courses are to be taken.

Undergraduate Coordinator

Because a major intent of the program is to recruit and <u>retain</u> high achieving students, conversion of graduate level coursework to Graduate Credit will not occur until after the individual is fully admitted into the MS program and has achieved MS degree milestones warranting submission and approval of the MS Admission to Candidacy form, which lists only those graduate courses that will count towards the MS degree.

In addition to coursework, the MS part of this program also requires that a student eventually write a thesis based on original research. Thus, efforts related to developing and starting a research-based project in consultation with their graduate advisory committee (that meets MS committee requirements) are required immediately after conditional admission is provided. After consultation with your graduate advisor, please provide information relevant to indicate estimated timeline to achieve important milestones necessary to complete BS and MS degree requirements.

Year and Term Begin Thesis Research								
Year and Term Complete BS Degree Requirements								
Year and Term Complete GRE								
Year and Term Apply to Graduate School								
Year and Term Complete MS Degree Requirements								
Date/Time of Scheduled Meeting with Director of Graduate Studies								
Date/Time of Scheduled Meeting with	n Undergraduate Coo	ordinator						
Date/Time of Scheduled Meeting with Graduate Advisor								
The next step in the continuum of being conditionally admitted into the PLANT SCIENCE Accelerated FIVE-YEAR BS-MS PROGRAM, is to submit this form complete with requested information and required signatures from all respective parties up to this point to the Director of Graduate Studies of Plant Sciences. Conditional admission into the 5-year BS-MS program must be approved by the Department of Plant Science and the Graduate School. Students will be typically informed of the outcome of their application by the end of their junior year of undergraduate study.
